Office of the Treasurer

ONE DONHAM PLAZA 4th FLOOR MIDDLETOWN, OHIO 45042

December 29, 2015

To The Citizens and Board of Education of the Middletown City School District:

The Comprehensive Annual Financial Report [CAFR] of the Middletown City School District (the "District") for the fiscal year ended June 30, 2015, is hereby submitted. This report, prepared by the Treasurer's office, includes an opinion from our auditor, Clark, Schaefer, Hackett & Co., and conforms to generally accepted accounting principles [GAAP] as applicable to governmental entities. Responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. This report will provide the residents of the Middletown City School District with comprehensive financial data in a format that will enable them to gain an understanding of the District's financial affairs. Copies will be available upon request to taxpayers, financial rating services, banking institutions and other interested parties.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (the "MD&A"). This transmittal letter is designed to complement the MD&A and should be read in conjunction with it. The Middletown City School District's MD&A can be found immediately following the Independent Auditors' Report.

The District provides a full range of traditional and non-traditional educational programs and services. These include elementary and secondary curriculum offerings at the general, college preparatory and vocational levels; a broad range of co-curricular and extracurricular activities; adult and community education offerings; special education programs and facilities; and community use facilities.

The District receives pass through grants from the State and distributes these grants to parochial/private schools located within the District. This activity is included in the entity as the Auxiliary Services Special Revenue Fund because of the District's administrative involvement in the program. The parochial/private school served is John XXIII Elementary School. While these organizations share operational and service similarity with the District, each is a legally separate and distinct entity. Because of their independent nature, none of these organizations are included in this report.

ECONOMIC CONDITION AND OUTLOOK

The District is located in southwestern Ohio, midway between the cities of Cincinnati and Dayton, in the northeast corner of Butler County. The eastern boundary of the District is along Interstate 75, which runs from Canada to Florida, making it a desirable location for many businesses that require easy access to the nation's interstate system. Approximately 64 percent of the District's tax base is agricultural and residential properties; the remainder is composed of a wide range of manufacturing, commercial and other business properties. The overall economic outlook for the area remains guarded with unemployment rates at 7.8 percent for Butler County.

The District is continually challenged by the responsibility bestowed upon it by the community at large. We are always striving to provide the very best opportunities to every student, while carefully guarding the District's resources.

DESCRIPTION OF THE DISTRICT

The District serves an area of 25 square miles, encompassing the City of Middletown and a portion of Lemon Township in the northeastern corner of Butler County, midway between Cincinnati and Dayton. It also encompasses a small portion of Franklin Township in Warren County. According to information from the U.S. Census Bureau, the population of the City of Middletown is approximately 48,702 residents. The tax base of the District is comprised of a unique blend of residential, commercial, and industrial property, with 36% of the tax revenue of the District paid by business and industry.

During the 2014-15 school year, the District had 6,604 students enrolled in 7 elementary schools, one sixth grade center, one middle schools serving grades 7-8 and one comprehensive high school for grades 9-12 including an alternative program. The District also operates a variety of other facilities, including a central administration building, bus garage, and several sports fields. The District has eleven active buildings with the average built year of 1974 but four buildings were in 2007 or after. The projected funded enrollment for fiscal year 2016 is 6,594.

The District provides a full range of programs and services for its students and citizens. These include elementary and secondary course offerings at the general and college preparatory levels; a broad range of co-curricular and extra-curricular activities to complement the students' curricular program; and adult education offerings for improvement beyond the high school level. The GED program is operated by Butler Tech.

ORGANIZATION OF THE SCHOOL DISTRICT

The Board of Education of the Middletown City School District (Board) is composed of five members elected at large by the citizens of the District. The Board serves as the taxing authority, contracting body and policy initiator for the operation of the District. The Board is also responsible for the adoption of the tax budget, the annual operating budget and approves all expenditures of the District. The Board is a body politic and corporate, as defined by Section 3313.02 of the Ohio Revised Code, and has only those powers and authority conferred upon it by the Code.

The Board members represent a cross section of professions in the community. The Board members on June 30, 2015, were as follows:

Board Member Mrs. Marcia Andrew Rev. Gregory Tyus	Began Service January, 2006 Jan 1999 – Dec 2013 January, 2007	Term Expires December, 2017 December, 2015	Profession Attorney Pastor
Ms. Christi Delloma	April, 2013	December, 2015	Education
Mrs. Katie McNeil	January, 1996	December, 2015	Executive V.P. of Manufacturing
Mrs. DeAnna Shores	January, 2012	December, 2015	Education

The Superintendent is the Chief Executive Officer of the District, responsible directly to the Board for all educational and support operations. Dr. Sam Ison was appointed Superintendent in July, 2013. Prior to his appointment, Dr. Ison served as Director of Instructional Leadership in Middletown City Schools and was a high school principal in Lebanon City Schools prior to that. Dr. Ison holds a Doctorate Degree in Educational Administration from Miami University and has 36 years of experience in education.

The Treasurer is the Chief Financial Officer of the District and is directly responsible to the Board for all financial operations, investments, and serves as Secretary to the Board. Mr. Randall Bertram became Treasurer August 1, 2014. Mr. Bertram holds a Bachelor's of Science in Business Administration and an Associates in Applied Science in Financial Management.

All other District employees, with the exception of the Treasurer's staff, are responsible to the Superintendent and are employed by the Board upon the recommendation of the Superintendent.

EMPLOYEE RELATIONS

The District employed 525 full and part-time staff members during the 2014-15 school year. This included classified employees who are responsible for the operation of the District's support services and the teaching and administrative staff of the District. Two organizations represent the teaching and classified employees. The District's administrative employees are not currently represented.

The Middletown Teachers Association (MTA), an affiliate of the Ohio Education Association (OEA), represents all certificated employees of the District. The MTA and District have negotiated a collective bargaining agreement on language, salary and fringe benefits that began July 1, 2014 and expires June 30, 2017. This contract includes modest increases in wages and maintains benefits on the part of the union members, which the Board applied unilaterally to all District employees.

The Middletown Classified Employees Association (MCEA), also an affiliate of the Ohio Education Association (OEA), represents a majority of the support staff of the District. Classified employees are responsible for providing the necessary support services of the District, including: transportation services, clerical support, building maintenance and custodial needs. The current MCEA collective bargaining is effective July 1, 2014 through June 30, 2017 that includes modest increases in wages and maintains benefits on the part of the union members, which the Board applied unilaterally to all District employees.

SERVICES PROVIDED

The District provides a wide variety of educational and support services as mandated by the Ohio Revised Code or Board directives.

Services provided by the District include transportation, school lunch support services, guidance, psychological and limited health services free of charge. The guidance services are designed to help students match their natural skills with vocational and/or academic programs to help them achieve their full potential in life. Psychological services include the testing and identification of students for special education programs.

MAJOR CURRENT AND FUTURE INITIATIVES

The Middletown City Schools developed a shared vision- "Success for Each Student". With that vision statement as the focus, the district has accepted the challenge of "Career and College Readiness". Each building leader has developed goals with their respective staffs to bring careers and college as a supplement of what we do each day with our students. The daily instruction aligns with the Ohio Academic Learning Standards which moves our students toward academic success. Classroom teachers participate in professional development which helps the teacher utilize the latest methods and standards to gear instruction with high expectations for students.

The District calendar has 4 full days for professional development. Teaching strategies developed by Robert Marzono are included in the teacher evaluation along with student growth measures. The teachers receive training about the teaching strategies and growth measures. The teachers have written the SLO's (Student Learning Objectives) for the necessary courses and are involved with the Ohio School Improvement Process for continuous improvement.

Overall, Middletown City Schools is on the cutting edge for professional development, teaching strategies and the utilization of data to make decisions on student learning.

The Middletown City School District is currently engaged in a school construction program within Classroom Facilities Assistance Program of the Ohio Schools Facilities Commission. The master plan is for the construction or renovation of all of its school buildings at a cost that was estimated in 2002 to be \$150.8 million. This total project was divided into two phases. A \$75.8 million bond issue for construction of the six new and two renovated elementary schools was passed in November, 2003 and construction began in 2004.

Construction of three of the elementary schools, and the renovation of a fourth, was completed in the summer of 2006. Construction of the fifth elementary school began in the spring of 2005 and was completed in the summer of 2007. Construction of the sixth and seventh elementary buildings began in the spring of 2006 and was completed in early 2008. Finally, the renovation and addition of several classrooms to an existing elementary school began in the summer of 2007 with completion in the summer of 2008.

The second phase of the project consists of the construction of a new middle school and renovation of the current high school. The November 2013 ballot issue was defeated. In May 2014 the District successfully passed the \$55,000,000 bond issue for completing the District wide construction program. The District is currently working with Ohio School Facilities Commission, its architects, bond counsel, bond underwriting and municipal advisors to complete this project by 2018. This final phase will include the construction of a new middle school next to the high school, renovating the high school and razing of other vacant school buildings.

In May of 2010, the District combined and placed two existing emergency operating levies on the ballot as a substitute levy in the amount of \$18.3 million dollars. These emergency levies were due to expire December 31, 2010. The substitute levy successfully passed.

While the District continually strives to control rising costs and improve financial efficiencies, the District does not foresee the need to ask the voters for increased operating revenue in the foreseeable future.

RELEVANT FINANCIAL POLICIES

In June of 2006, the State legislature passed House Bill 66. House Bill 66 phases out the tax on tangible personal property of general business, telephone and telecommunications companies, and railroads. The tax on general business and railroad property began being phased out in 2007 and was eliminated in 2009. The tax on telephone and telecommunication property began being phased out in 2009 and was eliminated in 2011. The tax is being phased out by reducing the assessment rate on the property each year. The District was reimbursed fully for the lost revenue through May 2013; in the following six years, the reimbursements will be phased out according to current state law. In August 2015 the Board of Education worked with the treasurer to pass a General Fund Cash Reserve Policy benchmarking a minimum 10% cash reserve.

FINANCIAL INFORMATION

The District's accounting system is organized on a "fund" basis. Each fund is a distinct, self-balancing entity. Records for general governmental operations are maintained on a budgetary basis system of accounting as prescribed by State statute. Cash basis accounting differs from generally accepted accounting principles [GAAP] as promulgated by the Governmental Accounting Standards Board [GASB].

INTERNAL ACCOUNTING AND BUDGETARY CONTROL

In developing the District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The District utilizes a fully automated accounting system as well as an automated system of control for capital assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensure that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation is first adopted, the permanent appropriation measure must be adopted within three months.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the object account level within a function and fund. All purchase order requests must be approved by the individual program managers and certified by the Treasurer; necessary funds are then encumbered and purchase orders are released to vendors.

The accounting system used by the District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date. In addition to interim financial statements, each program manager is furnished monthly reports showing the status of the budget accounts for which he or she is responsible. Each program manager may request additional financial reports during the month when necessary. As an additional safeguard, a blanket bond covers all employees involved with receiving and depositing funds and a separate, higher bond covers certain individuals in policy-making roles. The basis of accounting and the various funds utilized by the District are fully described in the notes to the basic financial statements. Additional information on the District's budgetary accounts can also be found in the notes to the basic financial statements.

INDEPENDENT AUDIT

The State of Ohio requires an annual audit by either the Ohio Auditor of State or by an independent public accounting firm. The Clark, Schaefer, Hackett & Co. performed the audit for the fiscal year ended June 30, 2015. The auditor's unmodified opinion rendered on the District's basic financial statements, and their report on the combining and individual fund statements and schedules, is included in the financial section of this report. Pursuant to statute, the State prescribes a uniform accounting system to standardize accounting classification and financial reporting for all units of local education agencies in Ohio. The District adopted and has been in conformance with that system effective with its annual financial report since the 1979 calendar year.

AWARDS

GFOA Certificate of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement to the District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2014. The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to the GFOA.

ASBO Certificate of Excellence in Financial Reporting

The Association of School Business Officials International (ASBO) awards a Certificate of Excellence in Financial Reporting to school districts that publish Comprehensive Annual Financial Reports which substantially conform to the principles and standards of financial reporting as recommended and adopted by the Association of the School Business Officials. The award is granted only after an intensive review of the financial report by an all-expert panel of certified public accountants and practicing school business officials.

The District received the Certificate of Excellence in Financial Reporting for the fiscal year ended June 30, 2014. The District believes that the Comprehensive Annual Financial Report for fiscal year June 30, 2015, which will be submitted to ASBO for review, will conform to ASBO's principles and standards.

Acknowledgements

The preparation of the 2015 Comprehensive Annual Financial Report of the Middletown City School District was made possible by the combined efforts of the District's Finance Department and Fraunfelter Accounting Services. The publication of this Comprehensive Annual Financial Report for the District is a major step in the reinforcing of the accountability of the District to the taxpayers of the community. Finally, sincere appreciation is extended to the Board of Education for its interest and support of this project.

Respectfully submitted,

\$

INDEPENDENT AUDITORS' REPORT

To the Board of Education Middletown City School District:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Middletown City School District (the School District), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards general accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

one east fourth street, ste. 1200 cincinnati, oh 45202

> www.cshco.com p. 513.241.3111 f. 513.241.1212

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Middletown City School District as of June 30, 2015, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Effect of Adopting New Accounting Standards

As discussed in Note 19, the School District adopted the provisions of Governmental Accounting Standards Board Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27, and Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68. Our opinions were not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information, as identified in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The combining and individual nonmajor fund financial statements and schedules, introductory section and the statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 29, 2015, on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

Cincinnati, Ohio December 29, 2015 This page intentionally left blank

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

The management discussion and analysis of the Middletown City School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2015. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2015 are as follows:

- In total, net position of governmental activities increased \$54,215,858 of which \$51,403,241 is related to the recognition of the school facilities state grant for the construction of the new school facilities.
- General revenues accounted for \$123,553,949 in revenue or 90.89% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$12,377,913 or 9.11% for total revenues of \$135,931,862.
- The District had \$81,716,004 in expenses related to governmental activities; \$12,377,913 of these expenses
 were offset by program specific charges for services, grants or contributions. General revenues supporting
 governmental activities (primarily taxes and unrestricted/restricted grants and entitlements) were adequate
 to provide for these programs.
- The District now reports four major funds which include the general fund, bond retirement fund, building and construction capital project funds. The general fund had \$69,398,892 in revenues and other financing sources and \$69,099,954 in expenditures and other financing uses. The general fund's fund balance increased \$298,938 from a deficit balance of \$1,023,532 to a deficit of \$724,594.
- The bond retirement fund had \$4,324,936 in revenues and \$4,691,061 in expenditures. The bond retirement fund's fund balance increased \$3,828,779 with the inclusion of the bond premium during the year.
- The building and construction capital project funds are new major funds this year. The District issued \$45,000,000 in general obligation bonds that mostly remained in restricted cash at the end of the fiscal year.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

The statement of net position and statement of activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column.

Reporting the District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2015?" The statement of net position and the statement of activities answer this question. These statements include *all assets, deferred outflows, liabilities, deferred inflows, revenues and expenses* using the *accrual basis of accounting* similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's *net position* and changes in that position. This change in net position is important because it tells the reader that, for the District as a whole, whether the *financial position* of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the statement of net position and the statement of activities, the governmental activities include the District's programs and services, including instruction, support services, operation and maintenance of plant, pupil transportation, extracurricular activities, and food service operations.

The District's statement of net position and statement of activities can be found on pages 21-22 of this report.

Reporting the District's Most Significant Funds

Fund Financial Statements

The analysis of the District's major governmental funds begins on page 15. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund financial statements provide a detailed *short-term* view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *funds* is reconciled in the basic financial statements. The basic governmental fund financial statement of activities and governmental *funds* is reconciled in the basic financial statements. The basic governmental fund financial statement of activities and governmental funds is reconciled in the basic financial statements.

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for some of its scholarship programs. This activity is presented as a private-purpose trust fund. The District also acts in a trustee capacity as an agent for individuals, private organizations, other governmental units and/or other funds. These activities are reported in an agency fund. The District's fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary net position on pages 27 and 28. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements can be found on pages 29-65 of this report.

Required Supplementary Information

The schedule of revenues, expenditures, and changes in fund balance - budget and actual (non-GAAP budgetary basis) for the general fund, required net pension liability and contribution schedules and notes to the required supplementary information are provided on pages 67-76 of this report.

The District as a Whole

The statement of net position provides the perspective of the District as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

The table below provides a summary of the District's net position at June 30, 2015 and 2014.

	Governmental Activities 2015	Governmental Activities 2014	Percentage Change
<u>Assets</u>			
Current and other assets	\$ 145,270,782	\$ 41,342,719	251.38 %
Capital assets, net	65,282,976	65,128,217	0.24 %
Total assets	210,553,758	106,470,936	97.76 %
Deferred Outflows of Resources			
Deferred Charge on Refunding	49,394	52,388	(5.72) %
Pension	5,556,971	5,162,605	7.64 %

Unrestricted (deficit)	(90,343,892)	(93,507,156)	3.50 %
Total net position	\$ (32,349,230)	\$ (86,565,088)	62.63 %

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

During 2015, the District adopted GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27," which significantly revises accounting for pension costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the District's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the new standards required by GASB 68, the net pension liability equals the District's proportionate share of each plan's collective:

- 1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
- 2 Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the District is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the District's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

As a result of implementing GASB 68, the District is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting. This implementation also had the effect of restating net position at June 30, 2014, from \$7,017,553 to (\$86,565,088).

Other than pension related items, the District saw the year end net position of \$60,335,549. During the year, the District issued \$45 million in general obligation bonds and has secured a grant from the Ohio School Facilities Commission to fund the construction of several new construction projects. These two items account for almost \$95 million of the total assets as reported as restricted cash and cash equivalents with the trustee and intergovernmental receivable. Capital assets saw slight change as the \$3.3 million in additions exceeded the \$3.0 million in current year depreciation.

The District saw total liabilities increase as the District issued one new long-term debt issue for \$45 million with almost another \$5 million in premium that is also reported as a long term liability. The deferred inflows of resources for property taxes increased over 20% as a result of the large tax advance available to the District reduced the deferral in fiscal year 2014. That advance was reported as a revenue since it was available as year-end.

A portion of the District's net position, \$54,147,596, represents resources that are subject to external restriction on how they may be used. Of the restricted net position, \$50,225,088 is restricted for capital projects through the available school facilities revenue, \$731,993 is restricted for debt service and \$3,190,515 is restricted for state and federally funded programs. The District reports an unrestricted deficit of \$90,343,892 with the net pension liability related amounts brought on by GASB 68.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

The table below shows the change in net position for fiscal years 2015 and 2014.

Change in Net Position

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

Governmental Activities

Net position of the District's governmental activities increased \$54,215,858 in fiscal year 2015 and increased \$1,840,016 in fiscal year 2014. Program revenues supported 16.49% of the total governmental expenses during fiscal year 2014 and down slightly at 15.15% of total governmental expenses during fiscal year 2015.

Total revenues of the District increased by \$46,532,634 during fiscal year 2015 mainly from the increase in intergovernmental revenue with the school facilities revenues being reported for fiscal year 2015. The property tax revenue did decrease as the District had \$5,284,198 in available advances for 2014 compared to \$1,985,338 in 2015.

Expenses also decreased by \$5,843,208. This decrease was partially the result of the pension expense recognition from the District implementing GASB 68 resulting in \$897,861 reduction as contractually required contributions of \$4,679,767 are removed and allocated pension expense plus amortization of deferred inflows/outflows of \$3,781,906 are added. The remaining \$4,945,347 decrease can be attributed to the District reducing staff through retirement or resignations and not replacing those positions.

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted state grants and entitlements.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

Total	<u>\$81,716,004</u>	<u>\$ 69,338,091</u>	<u>\$ 87,559,212</u>	<u>\$ 73,117,054</u>

The dependence upon tax and other general revenues for governmental activities is apparent, 89.92% of instruction activities were supported through taxes and other general revenues during fiscal year 2015 and 90.48% in fiscal year 2014. For all governmental activities, general revenue support was 84.85% in fiscal year 2015 and 83.51% in fiscal year 2014. The District's taxpayers and unrestricted grants and entitlements are by far the primary support for District students.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

The District's Funds

The District's governmental funds (as presented on the balance sheet on page 23) reported a combined fund balance of \$53,124,695, which is better than last year's total of \$1,127,541 although \$51,110,678 of the change is related to long term debt reported as other financing sources. The schedule below indicates the fund balance and the total change in fund balance as of June 30, 2015 and 2014.

	Fund Balance / (Deficit) June 30,2015	Fund Balance / (Deficit) June 30,2014	Increase/ (Decrease)	Percentage Change
General	\$ (724,594)	\$ (1,023,532)	\$ 298,938	29.21 %
Bond Retirement	5,446,025	1,617,246	3,828,779	100+ %
Building	15,732,576	-	15,732,576	100.00 %
Construction	31,963,464	-	31,963,464	100.00 %
Nonmajor Governmental	707,224	533,827	173,397	32.48 %
Total	<u> </u>	<u> </u>	<u>\$51,997,154</u>	100+ %

General Fund

The general fund increased \$298,938 during fiscal year 2015. The table that follows assists in illustrating the financial activities and fund balance of the general fund.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

	2015	2014	Increase/	Percentage
	Amount	Amount	(Decrease)	Change
Revenues				
Taxes	\$ 23,852,796	\$ 30,803,350	\$ (6,950,554)	(22.56) %
Tuition and fees	1,032,757	1,126,473	(93,716)	(8.32) %
Revenue in Lieu of Taxes	431,267	497,553	(66,286)	(13.32) %
Intergovernmental	41,250,794	39,841,070	1,409,724	3.54 %
Other revenues	891,191	743,035	148,156	19.94 %
Total	\$ 67,458,805	\$ 73,011,481	\$ (5,552,676)	(7.61) %
Expenditures				
Instruction	\$ 44,524,760	\$ 46,377,978	\$ (1,853,218)	(4.00) %
Support services	21,086,707	25,165,486	(4,078,779)	(16.21) %
Operation of				
non-instructional services	57,569	72,127	(14,558)	(20.18) %
Extracurricular activities	83,916	78,952	4,964	6.29 %
Capital outlay	7,065	259,741	(252,676)	(97.28) %
Debt service	2,713,365	644,541	2,068,824	320.98 %
Total	¢ (0 472 202	¢ 70 500 005	¢ (4.10E.440)	
Total	\$ 68,473,382	\$ 72,598,825	<u>\$ (4,125,443)</u>	(5.68) %

Revenues of the general fund decreased \$5,552,676 or 7.61%. The most significant decrease was in the area of taxes. This decrease for taxes is the result of higher amount available for advance in fiscal year 2014 as discussed earlier. Intergovernmental revenues increased \$1,409,724 or 3.54%. The increase for intergovernmental revenue is mainly from the foundation revenue increasing over fiscal year 2014.

Expenditures of the general fund decreased \$4,125,443 or 5.68%. This decrease is primarily the result of decreased personal service costs in the instruction and support service line items.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

Bond Retirement Fund

The bond retirement fund saw the fund balance increase although the revenue was less than the expenditures. The District recorded \$4.1 million of bond premium in the fund during the year.

Building Capital Projects Fund

The building capital projects fund is a new major fund for fiscal year 2015. The District reported a portion of the \$45 million general obligation bond in this fund. The District is paying for a portion of the construction project from this fund as well. The fund reports almost \$16 million in restricted cash and cash equivalents.

Construction Capital Projects fund

The construction capital projects fund is a new major fund for fiscal year 2015. The District reported a portion of the \$45 million general obligation bond in this fund. The District is paying for a portion of the construction project from this fund as well. This fund will account for the school facilities revenues received from the State of Ohio to pay that portion of the construction project. The fund reports over \$32 million in restricted cash and cash equivalents.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal year 2015, the District amended its general fund budget several times. For the general fund, final budgeted revenues and other financing sources of \$80,432,082 were \$6,438,145 higher than the original budgeted revenues and other financing sources estimate of \$73,993,937. The main differences were in other financing sources as the District issued a short term operating note during the year. The remaining difference comes from variances across varies revenue accounts. The actual revenues were \$3.7 million below the final budget as the District actual taxes came in lower with higher delinquency amounts.

General fund original appropriations were \$73,581,221. Final appropriations (budgeted expenditures plus other financing uses) of \$78,264,063 were \$4,682,842 higher than original budgeted expenditures. Approximately \$3.8 million of the difference related to the funding the District loses to community schools when District students attend a different school. Actual expenditures and other financing uses were \$2.1 million under the final budget as the District held year end expenditures in place given the reduction in general fund available balance.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2015, the District had \$65,282,976 invested in land, construction in progress, buildings and improvements and equipment. This entire amount is reported in governmental activities.

The following table shows June 30, 2015 balances compared to June 30, 2014.

Capital Assets at June 30 (Net of Depreciation)

	Governmental Activities		
	2015	2014	
Land	\$ 1,189,017	\$ 1,211,493	
Construction in progress	1,709,886	-	
Buildings and improvements	61,464,700	62,199,494	
Equipment	919,373	1,717,230	
Total	\$ 65,282,976	\$ 65,128,217	

The capital assets increased \$154,759. This is due to additions exceeding depreciation expense of \$2,980,795 and disposals (net of accumulated depreciation). See Note 8 to the basic financial statements for detail on the District's capital assets.

Debt Administration

At June 30, 2015 the District had \$110,416,775 in general obligation bonds, notes and capital lease obligations outstanding. Of this total, \$3,338,618 is due within one year and \$107,078,157 is due in greater than one year.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

The following table summarizes the bonds, notes and capital lease obligations outstanding.

	Governmental Activities 2015		Activities Activities	
Construction bonds	\$	990,000	\$	1,680,000
2007 refunding bonds				
Current Interest and term		53,220,000		53,255,000
Premium		3,403,125		3,609,375
2015 general obligation bonds				
Current Interest and term		45,000,000		-
Premium		4,433,289		-

Outstanding Debt, at Year End

See Note 9 to the basic financial statements for detail on the District's debt administration.

For the Future

The District has experienced a steady decline in student enrollment over the past several years as a result of students leaving Middletown schools to attend charter/community schools, other public schools (open enrollment), and participate in the state voucher program for parochial schools. Over 580 students attended charter/community schools other than Middletown in fiscal year 2015 while residing within the district boundaries. Another 321 were opened enrolled to surrounding public schools while 187 EdChoice scholarships were awarded to students to attend area parochial schools. This has resulted in rising tuition costs and financial pressures that as a negative effect on the general fund carryover balance. However, early indications for fiscal 2016 indicate that enrollment has leveled with possibly a slight increase overall.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

The District is taking measures to help control rising costs and improve financial efficiencies, the Board also recognized the need for stabilized local operating revenues. After several failed operating levies and one successful levy, the District combined and substituted two tax levies in May, 2010. The levies will collect \$18.3 million annually and are continuous. The Board also implemented a cash carryover policy in 2015 to require a minimum of 10% cash carryover of operating expenditures with a detailed procedure to ensure that the District will get to the 10% requirement and be able to maintain it.

The District's efforts at cost savings and increased revenues have started to show as the ending cash balance as reported on the District's five year forecast in fiscal year 2015 was \$2,593,485 and the forecast for fiscal year 2016 is showing an increased ending balance of \$7,263,707 that will increase over the following four years resulting in a forecasted ending balance of \$19,259,499 fiscal year 2020. The District's revenue is forecasted to increased state aide for the next five fiscal years.

All of the District's financial abilities will be needed to meet the challenges of the future. With careful planning and monitoring of the District's finances, the District's management is confident that the District can continue to provide a quality education for our students and provide a secure financial future.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information contact Mr. Randall Bertram, Treasurer/CFO, Middletown City School District,1 Donham Plaza, Middletown, Ohio, 45042.

Middletown City School District Butler County, Ohio Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2015

Net Change in Fund Balances - Total Governmental Funds		\$51,997,154
Amounts reported for governmental activities in the Statement of Activities are different because:		
Capital outlays are reported as expenditures in governmental funds. However, in the Statement of Activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:		
Capital assets additions	3,316,732	
Depreciation expense	(2,980,795)	
Excess of capital asset additions over depreciation expense		335,937
The proceeds from the sale of capital assets are reported as revenue in the governmental funds. However, the cost of capital assets is removed from the capital assets account in the Statement of Net Position and offset against the proceeds from the sale of capital assets resulting in a loss on the sale of capital assets in the Statement of Activities.		
Loss on disposal of capital assets		(181,178)
Because some revenues will not be collected for several months after the School District's fiscal year ends, they are not considered "available" revenues and are deferred in the governmental funds.		
Delinquent property taxes	1,161,573	
Interest	44,449	
Intergovernmental	47,135,152	
		48,341,174
In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due. The following items resulted in lower interest being reported in the statement of activities:		
Increase in accrued interest payable	(185,788)	
Amortization of deferred refunding charges	(100,700) (2,994)	
	(_,,,,,,	(188,782)
The issuance of long-term debt (e.g., bonds, notes, leases) provides current financial resources to governmental funds, which the repayment of the principal of long-term debt consumes the current financial resources of the governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds reported the effect of premiums, whereas these amounts are deferred and amortized in the statement of activities. This amount is net effect of these differences in the treatment of long-term debt and related items. The details are as follows: Debts issued or incurred:		
Long-Term Bond issued	(45,000,000)	
Long-Term Bond Anticipation Notes issued	(1,600,000)	
Plus Net Premium on Bond Payable	(4,227,039)	
Principal Payments	1 (00 000	
Long-Term Bond Anticipation Notes payments	1,600,000	
General Obligation Bond payments	725,000 214,802	
Energy Conservation Note payments Capital lease payments	733,608	
Capital lease payments	133,000	(47 553 629)

Contractually required contributions are reported as expenditures in governmental funds; however, the statement of activities reports these

(47,553,629)

amounts as deferred outlfows.

Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities.

Some expenses reported in the Statement of Activities, such as compensated absences and retirement incentives, do not require the use of current financial resources and therefore are not reported as expenditures ingovernmental funds.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT

The Middletown City School District (the "District"), Butler County, was originally chartered in 1837 by the Ohio State Legislature. In 1853, State laws were enacted to create local Boards of Education. Today, the District operates under current standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 and Section 119.01 of the Ohio Revised Code.

The District operates under a locally elected five-member Board form of government and provides educational services as authorized by its charter or further mandated by State and/or federal agencies. The Board controls the District's instructional and support facilities staffed by 109 classified personnel and 448 certified teaching and administrative personnel to provide services to students and other community members.

In terms of enrollment, the District is the 40th largest in the State of Ohio (among 918 districts and community schools) and the 4th largest in Butler County. It currently operates 7 elementary schools, one sixth grade center, one middle school serving grades 7 - 8, one comprehensive high school (grades 9-12) including an alternative program. The District encompasses a total of 25 square miles that includes the City of Middletown and portions of Lemon Township.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District's significant accounting policies are described below.

A. Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No. 14, "<u>The Financial Reporting Entity</u>" as amended by GASB Statement No. 39, "<u>Determining Whether Certain Organizations Are Component Units</u>" and GASB Statement No. 61 "<u>The Financial Reporting Entity</u>: <u>Omnibus an amendment of GASB Statements No. 14 and No. 34</u>". The reporting entity is composed of the primary government and component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's Governing Board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary government's financial statements incomplete or misleading. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government).

The following organizations are described due to their relationship to the District:

<u>Parochial Schools</u> - The following parochial schools are located within the District: John XXIII Elementary School and Middletown Christian Schools. Parochial schools are operated independently of the District. Current State legislation provides partial funding to these parochial schools. These monies are received and disbursed on behalf of the parochial schools by the Treasurer of the District, as required by Ohio law. The accounting for these receipts and disbursements is reflected in a Special Revenue Fund for financial reporting purposes, because of the District's administrative responsibility.

The Southwestern Ohio Computer Association (SWOCA)

The Southwestern Ohio Computer Association (SWOCA) is a jointly governed organization among a four county consortium of school districts. The jointly governed organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member districts. Each of the governments of these schools supports SWOCA based upon a per pupil charge dependent upon the software package utilized. The Governing Board of SWOCA consists of six members elected by majority vote of all charter member schools plus one representative from the fiscal agent. The District paid SWOCA \$265,925 for services provided during the year. Financial information can be obtained from Mr. Michael Crumley, who serves as Director, at 3607 Hamilton-Middletown Rd., Hamilton, OH 45011.

The Butler Technology and Career Development Center

The Butler Technology and Career Development Center is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative from each of the participating school districts' elected boards. It possesses its own budgeting and taxing authority.

Butler Technology and Career Development Center was formed to provide vocational education opportunities to the students of Butler County, including students of the District. Financial information can be obtained from Mr. Paul Carpenter, who serves as Treasurer, at 3603 Hamilton-Middletown Rd., Hamilton, OH 45011.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

B. Measurement Focus

<u>Government-Wide Financial Statements</u> - The government-wide statements are prepared using the economic resources measurement focus. All assets, deferred outflows, liabilities and deferred inflows associated with the operation of the District are included on the Statement of Net Position. Fiduciary funds are not included in government-wide statements.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District. As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

<u>Fund Financial Statements</u> - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, current liabilities and deferred inflows generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

C. Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories governmental and fiduciary.

GOVERNMENTAL FUNDS

Governmental funds are those through which most governmental functions are financed.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets, liabilities and deferred inflows is reported as fund balance. The following are the District's major governmental funds:

<u>General Fund</u> - The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>Bond Retirement Fund</u> - The bond retirement fund is used to account for the accumulation of resources for and the payment of general obligation bond principal and interest and certain other long-term obligations from governmental resources when the District is obligated in some manner for the payment.

<u>Building Fund</u> – The building capital projects fund is used to account for the District's share of the school construction project. A portion of the general obligation bonds were recorded in this fund and will be used to pay for the project as it progresses.

<u>Construction Fund</u> – The school facilities capital projects fund accounts for monies received and expended in connection with contracts entered into by the District and the Ohio Department of Education for the building and equipping of classroom facilities.

Nonmajor governmental funds of the District are used to account for (a) financial resources that are restricted, committed, or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets and (b) specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects.

FIDUCIARY FUNDS

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's only trust fund is a private purpose trust which accounts for scholarship programs for students which uses the economic resources measurement focus. The District has one agency fund that has no measurement focus. The student activity fund accounts for assets and liabilities generated by student managed activities.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting.

<u>Revenues - Exchange and Nonexchange Transactions</u> - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 6). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position represents a composition of net position that applies to future periods and so will not be recognized as an outflow of resources until then. The District reports a deferred charge on refunding resulting from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The District also reports deferred outflows of resources on the government-wide statement of net position for pension. The deferred outflows of resources related to pension are explained in Note 13.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Deferred inflows of resources represent an acquisition of net position that applies to a future period and will be recognized until that time. Delinquent property taxes, interest, revenue in lieu of taxes, and grants and entitlements received before the eligibility requirements are met and pensions are also recorded as deferred inflows of resources. Deferred inflows of resources related to pension are reported on the government-wide statement of net position (see Note 13). On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred inflows of resources. On the statement of net position, property taxes and revenue in lieu of taxes for which there is an enforceable legal claim as of June 30, 2015, but which were levied to finance fiscal year 2016 operations, have been recorded as deferred inflows.

<u>Expenses/Expenditures</u> - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The entitlement value of donated commodities received during the year is reported in the fund financial statements as an expenditure with a like amount reported as intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Cash and Investments

To improve cash management, cash received by the District is pooled in a central bank account. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and investments" on the basic financial statements.

During fiscal year 2015, the District invested in money market mutual funds, federal agency securities, the State Treasury Asset Reserve of Ohio (STAROhio) and commercial paper. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's shares price which is the price the investment could be sold for on June 30, 2015.

Under existing Ohio statutes all investment earnings are assigned to the general fund unless statutorily required to be credited to a specific fund. Interest revenue credited to the general fund during fiscal year 2015 amounted to \$3,365, which includes \$2,688 assigned from other funds. The food service and auxiliary services special revenue funds, bond retirement and classroom capital projects fund also received interest of \$74, \$75, \$1,017 and \$153,467, respectively.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

For presentation on the basic financial statements, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

F. Inventory

On government-wide and fund financial statements, purchased inventories are reported at cost and donated commodities are presented at their entitlement value. Inventories are recorded on a first-in, first-out basis and are expensed when used. Inventories are accounted for using the consumption method.

On the fund financial statements, reported material and supplies inventory is equally offset by a nonspendable fund balance in the governmental funds which indicates that it does not constitute available spendable resources even though it is a component of net current assets.

Inventory consists of expendable supplies held for consumption, donated food, purchased food and non-food supplies.

G. Capital Assets

Capital assets are those assets specifically related to governmental activities. These assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District's capitalization threshold is \$2,500 for capital assets. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

	Governmental
	Activities
Description	Estimated Lives
Buildings and improvements	20 - 45 years
Equipment	5 - 20 years

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

H. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund loans receivables/payables". These amounts are eliminated in the governmental activities column on the statement of net position.

I. Compensated Absences

Compensated absences of the District consist of vacation leave and sick leave liability to the extent that payments to the employee for these absences are attributable to services already rendered and are not contingent on a specific event that is outside the control of the District and the employee.

The District reports compensated absences in accordance with the provisions of GASB No. 16, "<u>Accounting for Compensated Absences</u>". Vacation benefits are accrued as a liability as the benefits are earned if the employee's rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vested payment method.

The total liability for vacation and sick leave payments has been calculated using pay rates in effect at June 30, 2015 and reduced to the maximum payment allowed by labor contract and/or statute, plus any applicable additional salary related payments. The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements, the current portion of unpaid compensated absences is the amount expected to be paid using expendable available resources. These amounts are recorded in the account "matured compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported.

J. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, compensated absences and the early retirement incentive will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds and notes are recognized on the fund financial statements when due.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

K. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

L. Bond Premiums

Bond premiums are deferred and amortized over the term of the bonds using the straight-line method which approximates the effective interest method. Bond premiums are presented as an addition to the face amount of the bonds.

M. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

-Nonspendable fund balance relates to the value of consumable inventories.

-Restricted fund balances relate to money received from local, state or federal grants or maintained in segregated accounts for construction.

-Committed fund balances include amounts that can be used only for the specific purpose imposed by formal action (the highest level action via resolution) of the District's Board of Education.

-Assigned fund balances are balances the District administration have specified the future use. The District uses the policy of encumbering certain obligations within the general fund that are reported as an assigned fund balance. This is completed by the Treasurer's office as required by the Ohio Revised Code. The District also reports the cash balance of the principal support fund and neediest kids of all fund as assigned balances within the general fund. These funds are segregated by the accounting function within the Treasurer's office as required by the Ohio Revised Code.

-Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In nonmajor governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

N. Net Position

Net position represents the difference between assets, deferred outflows, liabilities and deferred inflows. Net investment in capital assets is capital assets net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available. Of the District's \$54,147,596 in restricted net position, none were restricted by enabling legislation.

O. Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

P. Restricted Assets

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other governments or imposed by enabling legislation. Restricted assets include the unspent bond proceeds held with the trustee for construction purposes.

Q. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the basic financial statements. Interfund activity between governmental funds is eliminated in the statement of activities.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 3 - ACCOUNTABILITY

Fund balances at June 30, 2015 include the following individual fund deficits:

Major fund	Deficit
General Fund	\$724,594
Nonmajor fund	
District Managed Activities	21,609
Auxiliary Services	179
Alternative Schools	240
Race to the Top Grant	1,351
Title III Grant	173
Teacher Quality	1,293

The General Fund deficit fund balance was due to adjustments for accrued liabilities. The District is monitoring the General Fund deficit and will take appropriate action if deemed necessary. The deficits in the nonmajor funds were due to timing of grant reimbursements at year end. The General Fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories.

Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Interim monies may be deposited or invested in the following securities:

- 1. United States Treasury notes, bills, bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio);
- 7. Certain banker's acceptance and commercial paper notes for a period not to exceed one-hundredeighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and,
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Cash on Hand

At fiscal year end, the District had \$1,500 in undeposited cash on hand, which is included on the financial statements of the District as part of "equity in pooled cash and investments".

B. Deposits with Financial Institutions

At June 30, 2015, the carrying amount of all District deposits was \$20,987,552. Based on the criteria described in GASB Statement No. 40, "Deposits and Investment Risk Disclosures", as of June 30, 2015, \$21,821,927 of the District's bank balance of \$22,426,765 was exposed to custodial risk as discussed below, while \$604,838 was covered by the FDIC.

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Although the securities were held by the pledging institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

C. Investments

As of June 30, 2015, the District had the following investments and maturities:

		Investment	
		Maturities	Concentration of
Investment type	Fair Value	in years	Credit Risk
Federal Home Loan Bank Notes	\$ 8,005,400	1.62	22.36%
Federal National Mortgage Association Notes	5,558,319	2.13	15.53%
Federal Home Loan Mortgage Corporation Notes	11,847,148	2.17	33.09%
Federal Farm Credit Bank Notes	2,250,962	1.68	6.29%
Star Ohio	1,364,801	0.10	3.81%
Commerical Paper	6,746,198	1.57	18.85%
First American Treasury Obligation Fund	24,068	0.10	0.07%
Total	\$ 35,796,896		

Interest Rate Risk: As a means of limiting its exposure to fair value losses arising from rising interest rates and according to State law, the District's investment policy limits investment portfolio maturities to five years or less, unless matched to a specific obligation or debt of the District.

Credit Risk: Standard & Poor's has assigned STAR Ohio an AAAm money market rating. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The District's investment policy does not specifically address credit risk beyond the adherence to all relevant sections of the Ohio Revised Code. Below are the credit ratings of the School District's investments:

	Rating Agency		
Security	Moody's	Standard & Poor's	
Federal Home Loan Bank Note	Aaa	AA+	
Federal National Mortgage Association Note	Aaa	AA+	
Federal Home Loan Mortgage Corporation Note	Aaa	AA+	
Federal Farm Credit Bank Notes	Aaa	AA+	
First American Treasury Obligations Fund	Aaa-mf	AAAm	

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the Treasurer or qualified trustee.

Concentration of Credit Risk: The District places no limit on the amount that may be invested in any one issuer.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 5 - INTERFUND TRANSACTIONS

Interfund balances at June 30, 2015, consist of the following individual receivables and payables and transfers in the governmental balance sheet (such amounts are removed from consolidated columns in the statement of net position):

Interfund Receivable	Interfund Payable	Amount
General Fund	Nonmajor governmental funds	\$167,216
Transfers Out	Transfers In	Amount
General Fund	Nonmajor governmental funds	\$626,572

The interfund receivable/payable was the resulting grant timing with the various federal grants and districted management activities special revenue funds. The receivable is expected to be repaid within a year. Transfers are used to (1) move revenues from the fund that statute or budget required to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

All transfers were made in compliance with Ohio Revised Code Sections 5705.14, 5705.15 and 5705.16.

NOTE 6 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District's fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real property, public utility property, and certain tangible personal (used in business) property located in the District. Real property tax revenues received in calendar year 2015 represent the collection of calendar year 2014 taxes. Real property taxes received in calendar year 2015 were levied after April 1, 2014, on the assessed values as of January 1, 2014, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Public utility property tax revenues received in calendar year 2015 represent the collection of calendar year 2014 taxes. Public utility real and personal property taxes received in calendar year 2014 became a lien on December 31, 2013, were levied after April 1, 2014, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 6 - PROPERTY TAXES - (Continued)

The District receives property taxes from Butler and Warren Counties. The County Auditors periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2015, are available to finance fiscal year 2015 operations. The amount available as an advance at June 30, 2015 was \$1,985,338 in the general, debt service and permanent improvement funds. The amount available for advance at June 30, 2014 was \$5,284,198 in the general, debt service and permanent improvement funds. The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and delinquent property taxes which are measurable as of June 30, 2015 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources.

On the accrual basis of accounting, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis of accounting the receivable has been reported as deferred inflows.

The assessed values upon which the fiscal year 2015 taxes were collected are:

	2014 Seco Half Collect		2015 First Half Collections			
	Amount	Percent	Amount	Percent		
Agricultural/residential						
and other real estate	\$ 657,709,970	92.34	\$ 603,212,590	92.34		
Public Utility personal	54,597,780	7.66	56,477,890	7.66		
Total	<u>\$712,307,750</u>	100.00	\$ 659,690,480	100.00		
Tax rate per \$1,000 of assessed valuation for:						
General	\$23.43		\$23.43			
Emergency	20.77		22.83			
Debt service	4.75		8.25			
Permanent Improvement	0.24		0.50			

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 7 - RECEIVABLES

Receivables at June 30, 2015 consisted of property taxes, revenue in lieu of taxes, accounts (billings for user charged services and student fees), interfund loans and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs and the current year guarantee of federal funds. A summary of the principal items of receivables reported in the statement of net position follows:

Governmental activities:	
Property taxes	\$37,234,872
Payment in lieu of taxes	608,611
Accounts	176,636
Intergovernmental:	
School Facilities Grant	46,681,618
SERS Refund	249,641
Medicaid	26,989
Bureau of Workers Compensation	12,049
Alternative schools	11,366
Title VI-B	404,166
Title III	12,808
Title I	2,406,453
EHA Preschool	25,281
Improving Teacher Quality	601,189
Total	\$ 88,451,679

Receivables have been disaggregated on the face of the basic financial statements. All receivables are expected to be collected in the subsequent year.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 8 - CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2015, was as follows:

	Balance <u>6/30/14</u>	Additions	Ε	Deductions		Balance <u>6/30/15</u>
Governmental activities:						
<i>Capital assets, not being depreciated:</i> Land	\$ 1,211,493	\$ 73,680	\$	(96,156)	\$	1,189,017

Capital leases	911,284		(733,608)	177,676	48,868
Total long term debt	62,863,146	51,110,678	(3,557,049)	110,416,775	3,338,618
Retirement incentive	138,494	-	(138,494)	-	-
Net Pension Liabilities:					
SERS	15,385,248	-	(2,291,576)	13,093,672	-
STRS	83,359,998	-	(13,379,762)	69,980,236	-
Compensated absences	1,618,503	827,265	(1,610,831)	834,937	51,354
Total governmental activities	\$163,365,389	\$ 51,937,943	\$(20,977,712)	\$194,325,620	\$ 3,389,972

General obligation bonds will be paid from the debt service fund and the HB264 energy conservation notes will be paid from the general fund. Compensated absences will be paid from the fund from which the person is paid, typically the general fund and special revenue funds. Capital lease obligations will be paid from the general fund.

In March 2004, the District issued \$70,800,000 in bonds that was used on various construction projects throughout the District, mainly the construction of new buildings. The interest rates for the bonds are fixed rates (the rate for each year is disclosed in the bond documents) that change from year-to-year. After the refunding, as described below, the outstanding bonds have a final maturity date of December 1, 2015.

On February 27, 2007, the District issued \$60,621,250 in general obligation bonds with an average interest rate of 5.02% of which \$55,465,000 was used to partially advance refund \$56,975,000 of outstanding construction bonds issued in March 2004. The net proceeds of \$59,855,611 (after payment of underwriting fees, insurance and other issuance costs) were used to purchase U.S. government securities. Those securities were deposited into an irrevocable trust with an escrow agent to provide all future debt service payment on the construction bonds.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 9 - LONG-TERM OBLIGATIONS - (Continued)

As a result, \$56,975,000 of the construction bonds are considered to be defeased and the related liability for those bonds has been removed from the statement of net position. At June 30, 2015, \$56,975,000 of bonds outstanding are considered to be defeased. The bonds issued had a premium of \$5,156,250 and have a final maturity date of December 1, 2031.

The reacquisition price exceeded the net carrying amount of the old debt by \$74,841. This amount is being amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued.

In September 2004, the District issued \$1,421,541 in notes that was used for energy conservation within the District. The interest rate is 4.85% with the maturity date of September 22, 2019. The first payment on the notes was September 22, 2005.

In fiscal year 2008, the District issued \$677,662 in notes that was used for energy conservation within the District. The interest rate is 4.20% with the notes maturing in fiscal year 2018. The first payment on the notes was made in fiscal year 2009.

In fiscal year 2014, the District issued \$845,000 in notes that was used for energy conservation within the District. The interest rate ranges from 3.00% to 4.75% with the notes maturing in fiscal year 2022. The first payment on the notes was made in fiscal year 2015.

In fiscal year 2015, the District issued \$1,600,000 in bond anticipation notes that were used for the Barnitz renovation. On July 10, 2015, the District refunded the notes with a new bond anticipation note for \$1,090,000. The fiscal year 2015 bond anticipation notes were issued at a 1.875% interest rate.

In fiscal year 2015, the District issued \$45,000,000 in general obligations bonds as the local share of the school facilities project. The bonds were issued as serial bonds maturing in December 2034 of \$6,695,000 and three term bonds maturing in December 2031 for \$40,000, maturing in December 2040 for \$11,625,000 and maturing in December 2048 for \$26,640,000. The combined series has an interest rate of 5.23%

<u>Retirement incentive</u> - During fiscal year 2012, the District offered employees a retirement incentive known as The Employee Severance Plan (the "ESP"). This was a one time offer to full time teachers, administrators and classified staff that will have ten or more years of service with the District and were eligible for full or reduced State retirement benefits as of June 30, 2012. The ESP was not available to those who have retired and were subsequently re-hired by the District or for contracted services employees. Teachers and administrators who elected the ESP received \$45,000, plus an amount equivalent to the employee's applicable contractual sick leave pay. Classified staff who elected the ESP received \$20,000, plus an amount equivalent to the employee's applicable contractual sick leave pay. The remaining \$138,494 was paid during fiscal year 2015.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

	\$	102,402,685	\$	90,697,860	\$	193,100,545

Principal and interest requirements to retire debt outstanding at year end are as follows:

B. Legal Debt Margin

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District. The code additionally states that unvoted indebtedness related to energy conservation debt shall not exceed 9/10 of 1% of the property valuation of the District. The assessed valuation used in determining the District's legal debt margin has been modified by House Bill 530 which became effective March 30, 2006. In accordance with House Bill 530, the assessed valuation used in the District's legal debt margin calculation excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, and personal property owned or leased by a railroad company and used in railroad operations. The effects of these debt limitations at June 30, 2015, are a voted debt margin of \$6,870,681 and an unvoted debt margin of \$659,690. During 2015, the District issued \$45 million of voted general obligation bonds. Since the bonds are a voted bond issue they are excluded from the legal debt margin calculation.

NOTE 10 - SHORT TERM NOTES

On December 16, 2014, the District issued \$3,500,000 in tax anticipation notes at an interest rate of 2.5% for the purpose of cash flow during the local tax collection period of January through April 2015. The notes matured on May 1, 2015.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 11 - CAPITAL LEASES

In prior years, the District entered into capital leases for copiers and computers.

The leases meet the criteria of capital leases as defined by accounting standards, which defines a capital lease generally as one that transfers benefits and risks of ownership to the lessee. Capital lease payments for the computers and copiers will be made from the general fund.

Equipment, from all prior leases, in the amount of \$2,249,676 has not been capitalized since the assets do not individually meet the District's capitalization threshold. The equipment lease for fiscal year 2014 does qualify for capitalization resulting in \$248,273 being reported on the statement of net position.

The following is a schedule of the future minimum lease payments required under the capital leases and the present value of the minimum lease payments as of fiscal year end:

	Governmental	
Fiscal Year Ending June 30,	Activities	
2016	\$	53,554
2017		53,554
2018		53,554
2019		26,777
Total minimum lease payments		187,439
Less: amount representing interest		(9,763)
Total		\$177,676

NOTE 12 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft or damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

During the fiscal year, the District contracted with Indiana Insurance for general liability insurance coverage with a \$1,000,000 single occurrence limit and a \$2,000,000 aggregate limit covering all employees and volunteers of the District. The policy holds a \$5,000 occurrence deductible, with no deductible on general liability.

The buildings and property of the District are protected under a blanket coverage basis with the Indiana Insurance Company. Property coverage is on a cost replacement basis with a deductible of \$5,000. The Indiana Insurance Company provides coverage for the District's boilers and machinery under a separate policy with similar limits.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 12 - RISK MANAGEMENT - (Continued)

Vehicle insurance coverage for the District's non-bus vehicles is provided by Indiana Insurance under a combined liability limit of \$1,000,000 per occurrence for bodily injury and property damage. The buses are provided by Petermann and not considered the District's asset.

The Ohio Casualty Insurance Company maintains a \$50,000 public official bond for the Treasurer and a \$20,000 performance bond for the Board President and Superintendent. A blanket school employee honesty bond in the amount of \$5,000 per position is secured for all employees maintaining a position of trust. This includes food service cashiers, school building cashiers, and other employees who handle cash as a part of their job requirements.

Medical and dental insurance benefits are offered to employees through the Butler Health Plan (BHP). The employees share the cost of the monthly premium for the coverage with the District. The District also provides life insurance through Prudential Life Insurance to all employees and access to accidental death and dismemberment insurance through UNUM.

There were no significant reductions in insurance coverage from the prior year. Also, there were no settlements that exceeded insurance coverage for the past three fiscal years.

NOTE 13 - PENSION PLANS

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions--between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 13 - PENSION PLANS (Continued)

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

Plan Description - School Employees Retirement System (SERS)

Plan Description – The District's non-teaching employees participate in SERS, a cost-sharing multipleemployer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at <u>www.ohsers.org</u> under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 13 - PENSION PLANS (Continued)

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2015, the allocation to pension, death benefits, and Medicare B was 13.18 percent. The remaining 0.82 percent of the 14 percent employer contribution rate was allocated to the Health Care Fund.

The District's contractually required contribution to SERS was \$914,285 for fiscal year 2015. Of this amount \$92,592 is reported as an intergovernmental payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – The District's licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 13 - PENSION PLANS (Continued)

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, and will be increased one percent each year until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2015, plan members were required to contribute 12 percent of their annual covered salary. The District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2015 contribution rates were equal to the statutory maximum rates.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 13 - PENSION PLANS (Continued)

The District's contractually required contribution to STRS was \$3,765,482 for fiscal year 2015. Of this amount \$539,931 is reported as an intergovernmental payable.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	SERS	STRS	Total
Proportionate Share of the Net			
Pension Liability	\$13,093,672	\$69,980,236	\$83,073,908
Proportion of the Net Pension			
Liability	0.258720%	0.28770674%	
Pension Expense	\$750,362	\$3,031,544	\$3,781,906

At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	SERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and			
actual experience	\$111,441	\$673,712	\$785,153
Difference between District contributions			
and proportionate share of contributions	0	92,051	92,051
District contributions subsequent to the			
measurement date	914,285	3,765,482	4,679,767
Total Deferred Outflows of Resources	\$1,025,726	\$4,531,245	\$5,556,971
Deferred Inflows of Resources			
Net difference between projected and			
actual earnings on pension plan investments	\$2,125,140	\$12,946,609	\$15,071,749
Difference between District contributions			
and proportionate share of contributions	96,093	0	96,093
Total Deferred Inflows of Resources	\$2,221,233	\$12,946,609	\$15,167,842

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 13 - PENSION PLANS (Continued)

\$4,679,767 reported as deferred outflows of resources related to pension resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	SERS	STRS	Total
Fiscal Year Ending June 30:			
2016	(\$533,058)	(\$3,045,211)	(\$3,578,269)
2017	(533,058)	(3,045,211)	(3,578,269)
2018	(533,058)	(3,045,212)	(3,578,270)
2019	(510,618)	(3,045,212)	(3,555,830)
Total	(\$2,109,792)	(\$12,180,846)	(\$14,290,638)

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 13 - PENSION PLANS (Continued)

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2014, are presented below:

Wage Inflation	3.25 percent
Future Salary Increases, including inflation	4.00 percent to 22 percent
COLA or Ad Hoc COLA	3 percent
Investment Rate of Return	7.75 percent net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2010.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.00 %	0.00 %
US Stocks	22.50	5.00
Non-US Stocks	22.50	5.50
Fixed Income	19.00	1.50
Private Equity	10.00	10.00
Real Assets	10.00	5.00
Multi-Asset Strategies	15.00	7.50
Total	100.00 %	

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 13 - PENSION PLANS (Continued)

Discount Rate

The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

	Current		
	1% Decrease	Discount Rate	1% Increase
	(6.75%)	(7.75%)	(8.75%)
District's proportionate share			
of the net pension liability	\$18,680,742	\$13,093,672	\$8,394,419

Actuarial Assumptions - STRS

The total pension liability in the June 30, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Projected salary increases	2.75 percent at age 70 to 12.25 percent at age 20
Investment Rate of Return	7.75 percent, net of investment expenses
Cost-of-Living Adjustments	2 percent simple applied as follows: for members retiring before
(COLA)	August 1, 2013, 2 percent per year; for members retiring August 1, 2013,
	or later, 2 percent COLA paid on fifth anniversary of retirement date.

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years; one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2014, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 13 - PENSION PLANS (Continued)

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	31.00 %	8.00 %
International Equity	26.00	7.85
Alternatives	14.00	8.00
Fixed Income	18.00	3.75
Real Estate	10.00	6.75
Liquidity Reserves	1.00	3.00
Total	100.00 %	

Discount Rate

The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2014. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2014. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2014.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

	Current			
	1% Decrease Discount Rate 1% Increa			
	(6.75%)	(7.75%)	(8.75%)	
District's proportionate share of the net pension liability	\$100,181,397	\$69,980,236	\$44,434,161	

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 13 - PENSION PLANS (Continued)

Social Security System

Effective July 1, 1991, all employees not otherwise covered by SERS/STRS Ohio have an option to choose Social Security or SERS/STRS Ohio. As of June 30, 2015, three members of the Board of Education have elected Social Security. The District's liability is 6.2 percent of wages paid.

NOTE 14 - POSTEMPLOYMENT BENEFITS

A. School Employees Retirement System

In addition to a cost-sharing multiple-employer defined pension plan the School Employees Retirement System of Ohio (SERS) administers a post-employment benefit plans.

Health Care Plan

ORC 3309.375 and 3309.69 permit SERS to offer health care benefits to eligible retirees and beneficiaries. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. SERS offers several types of health plans from various vendors, including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively.

The ORC provides the statutory authority to fund SERS' postemployment benefits through employer contributions. Active members do not make contributions to the postemployment benefit plan.

The Health Care Fund was established under, and is administered in accordance with the Internal Revenue Code 105(e). Each year after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer 14 percent contribution to the Health Care Fund. For the year ended June 30, 2015, the health care allocation is 0.82 percent. An additional health care surcharge on employers is collected for employees earning less than the actuarially determined minimum compensation amount, pro-rated according to service credit earned. Statutes provides that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge.

For the fiscal year June 30, 2015, the minimum compensation level was established at \$20,450. The surcharge added to the unallocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The District's contributions assigned to health care for the years ended June 30, 2015, 2014 and 2013, were \$176,824, \$131,084 and \$133,496, respectively.

The SERS Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or their surviving dependents. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 14 - POSTEMPLOYMENT BENEFITS (Continued)

The financial reports of SERS' Health Care Plan is included in its Comprehensive Annual Financial Report. The report can be obtained on SERS' website at <u>www.ohsers.org</u> under Employers/Audit Resources.

State Teachers Retirement System

Plan Description – The District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting <u>www.strsoh.org</u> or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For fiscal year 2015, STRS did not allocate any employer contributions to post-employment health care. The District's contributions for health care for the fiscal years ended June 30, 2015, 2014, and 2013 were \$0, \$290,027, and \$317,004 respectively. The full amount has been contributed for fiscal years 2014 and 2013.

NOTE 15 - CONTINGENCIES

A. Grants

The District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2015.

B. Litigation

The District is not party to legal proceedings.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 15 - CONTINGENCIES (Continued)

C. School Funding

School District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Effective for the 2014-2015 school year, traditional school districts must comply with minimum hours of instruction, instead of a minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the school district, which can extend past the fiscal year end.

As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2015 Foundation funding for the school district; therefore, the financial statement impact is not determinable at this time. ODE and management believe this will result in either a receivable to or liability of the School District.

NOTE 16 - SET-ASIDES

The District is required by State statute to annually set-aside in the general fund an amount based on a statutory formula for construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end. These amounts must be carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the fiscal year-end set-aside amounts for capital improvements. Disclosure of this information is required by State statute.

	Capital Improvements
Set-aside balance June 30, 2014	\$ -
Current year set-aside requirement	1,079,414
Current year qualifying expenditures	(1,759,186)
Current year offset for bond proceeds carryover	
Total	<u>\$ (679,772)</u>
Balance carried forward to fiscal year 2016	<u>\$</u>
Set-aside balance June 30, 2015	\$ -

Although the District had qualifying disbursements and offsets during the fiscal year that reduced the set-aside amount to below zero for the capital improvements set-aside, this amount may not be used to reduce the set-aside requirement for future fiscal years. The negative balance is therefore not presented as being carried forward to future fiscal years. The District has \$120,014,137 remaining from debt proceeds that will be available in future fiscal years as a capital improvements offset.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 17 - OTHER COMMITMENTS

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed, or assigned classifications of fund balance. At year end, the District's commitments for encumbrances in the governmental funds were as follows:

	Year-End
Fund	Encumbrances
General fund	\$872,984
Building fund	1,001,910
Classroom facilities fund	4,889,293
Nonmajor governmental funds	1,508,847
Total	\$8,273,034

NOTE 18 - FUND BALANCE ALLOCATION

The District has chosen to present the consolidated summary of fund balance classification on the financial statements. The detail of those fund balance classifications is outlined below:

Fund Balances:	Conoral	Bond	Duilding	Construction	Non-Major
	General	Retirement	Building	Construction	Funds
Nonspendable:					
Inventory	\$0	\$0	\$0	\$0	\$93,564
Restricted for:					
Debt Service	0	5,446,025	0	0	0
Food Service	0	0	0	0	129,272
Grants	0	0	0	0	292,381
Capital Projects	0	0	15,732,576	31,963,464	0
Committed for:					
Capital Improvements	0	0	0	0	216,852
Assigned to:					
Neediest Kids of All	2,387	0	0	0	0
Public School Support	77,003	0	0	0	0
Encumbrances	400,821	0	0	0	
Unassigned	(1,204,805)	0	0	0	(24,845)
Total Fund Balances	(\$724,594)	\$5,446,025	\$15,732,576	\$31,963,464	\$707,224

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 18 - FUND BALANCE ALLOCATION (Continued)

The committed fund balance for capital improvements comes from the Board of Education's resolution to transfer funds in prior years into the permanent improvement fund for a specific purpose. The assigned fund balance comes from cash basis funds created by the administration without specific revenue sources causing the cash basis fund being combined into the General Fund under GAAP reporting.

NOTE 19 – CHANGE IN ACCOUNTING PRINCIPLE

For fiscal year 2015, the District implemented the Governmental Accounting Standards Board (GASB) Statement No. 68, "Accounting and Financial Reporting for Pensions" and GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68." GASB 68 established standards for measuring and recognizing pension liabilities, deferred outflows of resources deferred inflows of resources and expense. The implementation of this pronouncement had the following effect on net position as reported June 30, 2014:

Net position June 30, 2014	\$7,017,553
Adjustments:	
Net Pension Liability	(98,745,246)
Deferred Outflow - Payments Subsequent to Measurement Date	5,162,605
Restated Net Position June 30, 2014	(\$86,565,088)

Other than employer contributions subsequent to the measurement date, the District made no restatement for deferred inflows/outflows of resources as the information needed to generate these restatements was not available.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 20 – SUBSEQUENT EVENTS

On July 1, 2015, the District issued \$2.5 million in tax anticipation notes at an interest rate of 1.75%. The notes will mature on May 3, 2016.

On July 6, 2015, the District issued \$1,090,000 in lease purchase revenue bond anticipation notes that mature on July 5, 2016 at interest rate of 1.75%

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 1 – BUDGETARY PROCESS

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriation resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

All funds, other than the agency fund, are legally required to be budgeted and appropriated. The legal level of budgetary control is at the function level for the General Fund and the fund level for all other funds. The Treasurer has been given the authority to further allocate the Board's appropriations. Any budgetary modifications at the legal level may only be made by resolution of the Board of Education.

Tax Budget:

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing or increased tax rates. By no later than January 20, the Board-adopted budget is filed with the County Budget Commission for rate determination.

Estimated Resources:

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the County Budget Commission and receives the Commission's certificate of estimated resources which states the projected revenue of each fund. Prior to June 30, the School District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported in the budgetary statements reflect the amounts in the amended certificate in effect at the time the final appropriations were passed by the Board of Education.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 1 – BUDGETARY PROCESS – (Continued)

Appropriations:

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution is legally enacted by the Board of Education at the fund and function level of expenditures, which is the legal level of budgetary control. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the School District. Budgetary controls require that the appropriation resolution, by fund, be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriations totals at the legal level of control. The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, several supplemental appropriations were legally enacted; however, these amendments were not significant.

The budgetary figures which appear in the "Schedule of Revenues, Expenditures, and Changes in Fund Balances – Budget (Non-GAAP Basis) and Actual – General Fund" are provided on the budgetary basis to provide a comparison of actual results with the final budget, including all amendments and modifications.

Encumbrances:

As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. On the GAAP basis, encumbrances outstanding at fiscal year end are reported as assigned fund balance in the general fund and within the other funds respective fund balance classifications.

Lapsing of Appropriations:

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, appropriations and encumbrances.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 1 – BUDGETARY PROCESS – (Continued)

The Schedule of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual (Budget Basis) – General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Outstanding year-end encumbrances are treated as expenditures for all funds (budget basis) rather than as a assignment of fund balance for governmental fund types (GAAP basis).
- 4. Advances-in and advances-out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis); and,
- 5. Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets budget basis.

	General Fund
GAAP Basis	\$298,938
Adjustments:	
Revenue Accruals	3,233,090
Expenditure Accruals	(5,613,300)
Fund budgeted elsewhere	(16,223)
Debt proceeds	3,528,510
Transfers	(176,912)
Advances	18,532
Encumbrances	(872,984)
Budget Basis	\$399,651

MIDDLETOWN CITY SCHOOL DISTRICT BUTLER COUNTY, OHIO GASB 54 FUNDS

<u>General</u> <u>Fund</u>

The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio. A budgetary schedule for the general fund is presented as part of the required supplementary information. The level of detail presented in that schedule is at the legal level of budgetary control; therefore, a separate additional schedule is not presented.

Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis):

Spotlight and Neediest Kids

To account for all revenues and expenditures related to the Spotlight and Neediest Kids program.

Uniform School Supply

To account for the purchase and sale of school supplies as adopted by the Board of Education for resale to students of the District.

Special Rotary

To account for all revenues and expenditures related to goods and /or services provided by the District, primarily those services provided by vocational classes to the general public. Activities in this fund are usually curricular in nature.

Public School Support

To account for specific local revenue sources (other than taxes) generated by individual school buildings (e.g. sale of pictures, profits from vending machines, etc.) Expenditures include field trips, materials, equipment and other items to supplement co- curricular and extra-curricular programs.

Middletown City School District Butler County, Ohio

Fund Descriptions

Special Revenue Funds

The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than for major capital projects) that are legally restricted to expenditures for specified purposes. The following are descriptions of the School District's nonmajor special revenue funds:

Nonmajor Special Revenue Funds

Food Service – It accounts for all food service charges for services, state and federal grants specific to the fund service activity, as well as related food service expenditures.

<u>Other Grant</u> – This fund accounts for the proceeds of specific revenue sources, except for state and federal grants that are legally restricted to expenditures for specified purposes.

<u>**District Managed Activities**</u> – This fund accounts for those student activity programs that have student participation in the activity, but do not have student management of the programs.

<u>Auxiliary Services</u> – This fund accounts for monies which provide services and materials to pupils attending non-public schools within the School District.

<u>Public Preschool Grant</u> – This fund accounts the costs of preschool programs for three to four year olds.

<u>Data Communications Grant</u> - This fund provides to account for money appropriated for Ohio Educational Computer Network Connections.

<u>Alternative Schools</u> – A fund used to account for alternative educational programs for existing and new at-risk and delinquent youth. Programs shall be focused on youth in one or more of the following categories: those who have been expelled or suspended, those who have dropped out of school or who are at risk of dropping out of school, those who are habitually truant or disruptive, or those on probation or on parole from a Department of Youth Services' facility.

<u>Miscellaneous</u> <u>State</u> <u>Grants</u> – This fund accounts for various monies received from State agencies that are not classified elsewhere. A separate special cost center must be used for each grant and be approved by the Auditor of State.

Middletown City School District Butler County, Ohio

Fund Descriptions Nonmajor Special Revenue Funds (continued)

<u>Adult Basic Education</u> – This fund accounts for instructional programs for persons sixteen year of age or older who are not enrolled in secondary school and who have less than a twelfth-grade education or its equivalent.

Race to the Top Grant – This fund provides for either a new program or expansion of an existing program to support initiatives in the following areas: Standards and Assessments; Using Data to improve Instruction; Great Teachers and Leaders; and Turning Around the Lowest- Achieving Schools.

<u>Title VI-B Grant</u> – This fund accounts for federal funds for the provision of full educational opportunities to handicapped children at the preschool, elementary and secondary levels and to assist in the training of teachers, supervisors and other specialists in providing educational services to the handicapped.

<u>**Title III Grant**</u> - This fund accounts for the School to develop and carry out elementary and secondary school programs, including activities at the pre-school level, to meet the educational needs of children of limited English proficiency.

<u>Title I Grant</u> – This fund accounts for federal funds expended for services provided to meet special educational needs of educationally deprived children.

<u>EHA Preschool Grant</u> – The Preschool Grant Program, Section 619 of Public Law 99-457, addresses the improvement and expansion of services for handicapped children ages three (3) through five (5) years.

Improving Teacher Quality Grant – This fund accounts for federal funds to be used to support the teachers in grades 1 through 3, so that the number of students per teacher will be reduced.

<u>Miscellaneous Federal Grants</u> – This fund accounts for other minor federal funds classified by the Ohio Department of Education to be recorded in this fund.

Middletown City School District Butler County, Ohio

Fund Descriptions

Capital Projects Funds

The Capital Projects Funds are used to account for the financing and acquisition or construction of major capital facilities, such as new school buildings or additions to existing buildings, and for major renovation projects including equipment purchases. The following is a description of the School District's nonmajor capital project funds:

Nonmajor Capital Projects Funds

<u>Permanent Improvement Fund</u> – This fund accounts for all transactions related to the acquiring, constructing, or improving of such permanent improvements as defined in the Ohio Revised Code.

State of Ohio Department of Taxation tax year 2008 and forward: note that these values are a combination of Butler County and Warren County Source:

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. The tangible personal property tax of general business and railroad property was eliminated in 2009. Note:

The tangible personal property tax of telephone and telecommunications property was eliminated in 2011.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates

generated the property tax revenue to be received in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by 10 percent, 2 1/2 percent and homestead exemption exemptions before being billed.

(1) Taxes levied and collected are presented on a cash basis.

(2) State reimbursements of rollback and homestead exemptions are included.

(3) Penalties and interest are included, since by Ohio law they become part of

the tax obligation as assessment occurs.

is how the information is supplied by the respective County Auditor. The amount in this column will sometimes result in the percentage of levy Note: The District understands that the information presented in the "collections from subsequent years" is not presented as required; however, this exceeding 100% for the respective calendar year.

Year Built	

(5) Rosa Parks opened in fiscal year 2007

(6) In 2008, due to construction, Wildwood students were housed at the Roosevelt Building and Mayfield was housed at the old Creekview building. Original Roosevelt students have been dispersed amongst the District because the building is no longer in use after Wildwood

students return after the Wildwood construction was completed.

(7) Taft Elementary was being used for storage

(8) Miller Ridge Elementary opened in fiscal year 2007.
 (9) Rosedale Elementary was under renovation during fiscal year 2008, and was renamed New Central Academy.
 (10) Roosevett Elementary was unoccupied in 2009 awaiting demolition.

(11) Demolished 2008.(12) 2009 and forward houses Butter County Head Start.
